Entry to the association

There are five different categories of membership of the APNT:

Student, Associate, Affiliate, Full and Corporate Members.

Student membership is compulsory for those who are currently undertaking APNT courses of study at accredited schools.

Associate membership is open to non-practising therapists and therapists who practise therapies not represented by the APNT but who still wish to belong to the Association. By agreement members of AOR and IFPA may also be allowed to register as associate members in order to retain their BCMA practitioner registration, provided they remain as full members of either AOR or IFPA.

Affiliated membership is open to therapists who are not APNT qualified but who have satisfied the Executive Committee of their knowledge, experience and professional competence. Affiliated members may choose to work towards Full membership either by sitting the APNT examinations or by satisfying the 'grandfather clause', an explanation of which is given below.

Full membership is open to those who have passed the APNT examinations or who have satisfied the grandfather clause as laid down by the British Massage Therapy Council. That is, the Association can take in to account up to four years of practice in which the prospective member can show a minimum number of 300 hours of recorded practice in any one qualifying year. Some approved post-graduate work (CPD) may also be allowed. A year of such practice may be seen as the equivalent of receiving 20 teaching hours so therapists whose course of study was less than the 150 hours minimum recommended by the BMTC can still be considered.

Corporate membership is for those organizations who wish to support the aims and objectives of the Association. Corporate members will benefit from a free advertisement or one mail shot in each newsletter.

The criteria for becoming a Full member of the APNT are under the discretion of the executive committee.
